READING COMPREHENSION

Passage 1

I felt the wall of the tunnel shiver. The master alarm squealed through my earphones. Almost simultaneously, Jack yelled down to me that there was a warning light on. Fleeting but spectacular sights snapped into and out of view, the snow, the shower of debris, the moon, looming close and big, the dazzling sunshine for once unfiltered by layers of air. The last twelve hours before re-entry were particularly bone-chilling. During this period, I had to go up into the command module. Even after the fiery re-entry, splashing down in 81° water in the South Pacific, we could still see our frosty breath inside the command module.

1. The word 'Command Module' used twice in the given passage indicates perhaps that it deals with
   a) an alarming journey
   b) a commanding situation
   c) a journey into outer space
   d) a frightful battle

2. Which one of the following reasons would one consider as more possible for the warning lights to be on?
   a) There was a shower of debris
   b) Jack was yelling
   c) A catastrophe was imminent
   d) The moon was looming close and big

3. The statement that the dazzling sunshine was "for once unfiltered by layers of air" means
   a) that the sun was very hot
   b) that there was no strong wind
   c) that the air was unpolluted
   d) none of above

4. The phrase "we could still see our frosty breath inside the command module" suggests that
   a) the temperature inside was very cold
   b) the air inside was smoky
   c) the astronauts were exhausted
   d) the command module was filled with vapor

5. The general atmosphere described in the passage can be best described as
   a) thrilling and tense
   b) calm and peaceful
   c) joyful and relaxing
   d) routine and ordinary

Answer Key:

1. c) a journey into outer space
2. c) A catastrophe was imminent
3. d) none of above
4. a) the temperature inside was very cold
5. a) thrilling and tense

Passage 2

There is a modicum of truth in the assertion that "a working knowledge of ancient history is necessary to the intelligent interpretation of current events." But the sage who uttered these words of wisdom might well have added something on the benefits of studying, particularly, the famous battles of history for the lessons they contain for those of us who lead or aspire to leadership. Such a study will reveal certain qualities and attributes which enabled the winners to win and certain deficiencies which caused the losers to lose. And the student will see that the same pattern recurs consistently, again and again, throughout the centuries.

1. A person who aspires to lead could learn from the history of battles
   a) what led the previous leaders win a battle
   b) what made them lose a battle
   c) the qualities and deficiencies of commanders of these battles
   d) the strategies that they have evolved in course of these battles

2. In this context, "intelligent interpretation of current events" means
   a) rational explanation of events
   b) appropriate understanding of events
   c) intellectual outlook on events
   d) skilful interpretation of events

3. The expression "more than a modicum of truth" means
   a) some truth
   b) much truth
   c) more than a small amount of truth
   d) nothing but truth

4. According to the writer, a study of famous battles of history would
   a) be beneficial to wise men
   b) provide food to modern leaders for reflection
   c) be more useful than a general knowledge of ancient history
   d) help us understand the art of modern warfare

5. A knowledge of history is necessary to interpret current problems because
   a) they have roots in the past
   b) they can be contrasted with the past events
   c) they may be repetitions of past events
   d) only then they can be put in a proper context

Answer Key:

1. c) the qualities and deficiencies of commanders of these battles

2. b) appropriate understanding of events

3. c) more than a small amount of truth

4. b) provide food to modern leaders for reflection

5. a) they have roots in the past

Passage 3

The casual horrors and real disasters are thrown at newspaper readers without discrimination. In the contemporary arrangements for circulating the news, an important element, evaluation, is always weak and often wanting entirely. There is no point anywhere along the line where someone puts his foot down firmly and says, "This is important and that does not amount to a row of beans; deserves no one's attention, and should travel the wires no farther." The junk is dressed up to look as meaningful as the real news.

1. Evaluation of news would imply
   a) less dependence on modern systems of communication
   b) more careful analysis of each news story and its value
   c) separating beans from junk
   d) discriminating horrors from disasters

2. The writer of the above passage
   a) seems to be happy with the contemporary arrangements for circulating news
   b) is shocked by the casual stories about horrors and disasters reported in the newspapers
   c) wants better evaluation of news before publication
   d) wants to put his foot down on news stories

3. In the above passage, the phrase "amounts to a row of beans" means that the news
   a) is weak and often wanting entirely
   b) deserves no one's attention
   c) should travel the wires
   d) is junk dressed up as real news

4. Newspapers lack a sense of discrimination because
   a) they do not separate the real news from mere sensationalism
   b) they have to accept whatever is received on the wires
   c) limited manpower makes serious evaluation impossible
   d) people don’t see the difference between 'junk' and 'real' news

5. The passage implies that
   a) there has to be censorship on newspapers
   b) there is no point in having censorship
   c) newspapers always dress up junk to look meaningful
   d) one has to be strict in selecting news items

Answer Key:

1. b) more careful analysis of each news story and its value

2. c) wants better evaluation of news before publication

3. b) deserves no one's attention

4. a) they do not separate the real news from mere sensationalism

5. d) one has to be strict in selecting news items

Passage 4:

A boy saw nothing, he had no knife or sharp instrument, the grating of the window was of iron and he had too often assured himself of its solidity. His furniture consisted of a bed, a chair, a table, a pail, and a jug. The bed had iron clamps, but they were screwed to the wall and it would have required a screwdriver to take them off.

Dantes had but one resource which was to break the jug and with one of the sharp fragments attack the wall. He let the jug fall on the floor and it broke in pieces. He concealed two or three of the sharpest fragments in his bed, leaving the rest on the floor. The breaking of the jug was too natural an accident to excite suspicion, and next morning the gaoler went grumblingly to fetch another, without giving himself the trouble to remove the fragments. Dantes heard joyfully the key grate in the lock as the guard departed.

1. Dantes was in
   a) a hostel
   b) a dining room
   c) an army barracks
   d) a prison

2. Dantes heard the key grate in the lock when the
   a) cell door was shut
   b) cell door was opened
   c) storeroom was opened
   d) storeroom was shut

3. The guard left the fragments because he
   a) didn't notice them
   b) wished to punish Dantes
   c) was too lazy to bother
   d) wanted Dantes to clear up

4. Dantes probably broke the jug
   a) in the morning
   b) during the night
   c) after breakfast
   d) at exactly 3pm

5. Dantes was planning to
   a) carve his name
   b) make his escape
   c) tease the guard

d) call for breakfast

Answer Key:

1. d) a prison
2. a) cell door was shut
3. c) was too lazy to bother
4. b) during the night
5. b) make his escape

Passage 5:

The greatest thing this age can be proud of is the birth of Man in the consciousness of men. In his drunken orgies of power and national pride, man may flout and jeer at it. When organised national selfishness, racial antipathy, and commercial self-seeking begin to display their ugly deformities in all their nakedness, then comes the time for man to know that his salvation is not in political organisations and extended trade relations, not in any mechanical re-arrangement of the social system, but in a deeper transformation of life — in the liberation of consciousness, in love, in the realisation of God in man.

1. In this passage, the phrase "God in man" implies
   a) God having assumed the shape of man
   b) neither fully godly nor fully human
   c) man being transformed into God
   d) the divine qualities in man

2. The author uses the expression "ugly deformities" to show his indignation at
   a) political organisations
   b) the liberation of human consciousness
   c) selfishness and materialism of the people
   d) the drunken orgies of power

3. According to the author, "salvation" of human beings lies in the
   a) extended trade relations
   b) spiritual transformation of life
   c) orgy of national pride
   d) wholehearted participation in political organisations

4. In the phrase "the birth of Man in the consciousness of men," Man stands for
   a) power and arrogance
   b) egocentricity
   c) noble human qualities
   d) an idealistic notion of the human self

5. People jeer at the "birth of Man" in the human consciousness when they
   a) begin to think of themselves as God
   b) become power hungry
   c) restructure the social system
   d) become mentally deranged

Answer Key:

1. d) the divine qualities in man

2. c) selfishness and materialism of the people

3. b) spiritual transformation of life

4. c) noble human qualities

5. b) become power hungry

Passage 6:

Sometimes we went off the road and on a path through the pine forest. The floor of the forest was soft to walk on; the frost did not harden it as it did the road. But we did not mind the hardness of the road because we had nails in the soles and heels. The nails bit on the frozen ruts, and with nailed boots it was good walking on the road and invigorating. It was lovely walking in the woods.

1. "Frozen ruts" means
   a) very cold roads
   b) wheel marks in which frost had become hard
   c) the road covered with frost
   d) hard roads covered with snow

2. The floor of the forest was soft because
   a) the forest did not harden it on account of trees
   b) the travellers were wearing boots
   c) the shoes had nails on their sole and heel
   d) they enjoyed walking in the woods

3. We did not mind the hardness of the road because
   a) we had nailed boots on
   b) it was good walking on the road
   c) the walk was refreshing
   d) the nails bit on the frozen roads

4. We found great joy on account of
   a) wearing nailed boots
   b) the good long walk on the road
   c) walking occasionally through the forest
   d) walking on frost with nailed boots on

5. Sometimes we walked through the pine forest as
   a) the path was unaffected by the frost
   b) it was good walking with nails in the boots
   c) the walk was invigorating
   d) it was sheer joy to walk in the forest

Answer Key:

1. b) wheel marks in which frost had become hard

2. a) the forest did not harden it on account of trees

3. d) the nails bit on the frozen roads

4. c) walking occasionally through the forest

5. a) the path was unaffected by the frost

Passage 7:

Sociologists have argued that there is a functional relationship between education and the economic system. They point to the fact that mass formal education began in industrial society. They note that the expansion of the economies of industrial societies is accompanied by a corresponding expansion of their educational systems. They explain this correspondence in terms of the needs of industry for skilled and trained manpower — needs which are met by the educational system. Thus, the provision of mass elementary education in Britain in 1870 can be seen as a response to the needs of industry for a literate and numerate workforce at a time when industrial processes were becoming more complex and the demand for technical skills was steadily growing.

1. The industry needs a literate workforce because
   a) its expansion needs sound learning
   b) it relies heavily on expertise
   c) it promotes a competitive spirit
   d) its operations need intricate technical knowledge

2. The author argues that
   a) formal education can be traced to industrial society
   b) industrial society is responsible for expansion of education at mass level
   c) industrial society gave rise to vocational education
   d) industrial society changed the pattern of education

3. The observations of the sociologists are based on a study of
   a) the statistical data available in a historical context
   b) economic system of the 19th century
   c) the correlation between industry and education in a historical context
   d) growth of industry in the 19th century

4. The sociologists referred to in the passage say that the relationship between industry and elementary education was one
   a) based on mutual need
   b) based entirely on the need of the industry
   c) based entirely on economic need
   d) based on some inexplicable historical forces

5. By “functional relationship” is meant
   a) a short-term relationship
   b) practical and utilitarian relationship
   c) temporary arrangement
   d) close and unbreakable relationship

Answer Key:

1. d) its operations need intricate technical knowledge

2. b) industrial society is responsible for expansion of education at mass level

3. c) the correlation between industry and education in a historical context

4. b) based entirely on the need of the industry

5. b) practical and utilitarian relationship

Passage 8:

Detective stories tend to glorify crime. Murderers, gangsters, and crooks of all kinds are described as tough, cunning, and courageous individuals who know how to take care of themselves and how to get what they want. In James McCain's *The Postman Always Rings Twice*, for instance, the villain is a much more impressive character than his victim. He is casually brave, smart, and successful with women. It is true that he finally gets caught, but he is punished for a crime that he did not commit, so that his conviction is hardly a triumph of justice. Besides, looking back over the exciting life of the criminal, the reader might conclude that it was worth the risk.

1. The passage mentions James McCain
   a) as an author of detective stories
   b) as brave, smart, and successful with women
   c) as tough, cunning, and courageous
   d) as being more impressive than others

2. Murderers, gangsters, and crooks referred to in the passage given above
   a) always manage to get away
   b) are often glorified in detective stories
   c) are wiser than their victims

d) know how to escape from law

3. According to this passage, a criminal in a detective story generally gets caught
   a) for the crimes he has committed
   b) because of his careless mistakes
   c) because the police is smarter than the criminals
   d) for the crimes he has not committed

4. According to the passage, the life of a criminal
   a) is exciting
   b) is hardly worth the risk
   c) is seldom presented in the right perspective
   d) ends in a triumph of justice

5. According to the passage given above, detective stories
   a) make interesting reading
   b) are hardly worth reading
   c) encourage readers to commit crimes
   d) tend to create wrong notion about crimes and punishment

Answer Key:

1. a) as an author of detective stories

2. b) are often glorified in detective stories

3. d) for the crimes he has not committed

4. a) is exciting

5. d) tend to create wrong notion about crimes and punishment

Passage 9:

I did not want to shoot the elephant. I watched him beating his bunch of grass against his knees, with the preoccupied grandmotherly air that elephants have. It seemed to me that it would be murder to shoot him. I had never shot an elephant and never wanted to. (Somehow it always seems worse to kill a large animal.) Besides, there was the beast's owner to be considered. But I had got to act quickly. I turned to some experienced-looking Burmans who had been there when

we arrived, and asked them how the elephants had been behaving. They all said the same thing: he took no notice of you if you left him alone, but he might charge if you went too close to him.

1. The phrase "preoccupied grandmotherly air" signifies
   a) being totally unconcerned
   b) pretending to be very busy
   c) a very superior attitude
   d) calm, dignified, and affectionate disposition

2. From the passage it appears that the author was
   a) an inexperienced hunter
   b) kind and considerate
   c) possessed with fear
   d) a worried man

3. The author did not want to shoot the elephant because he
   a) was afraid of it
   b) did not have the experience of shooting big animals
   c) did not wish to kill an animal which was not doing anybody any harm
   d) did not find the elephant to be ferocious

4. The author consulted the Burmans because
   a) he wanted advice on shooting the elephant
   b) he needed to know how the elephant had been behaving
   c) he wanted them to shoot the elephant
   d) he was afraid of being blamed by them

5. According to the Burmans, the elephant might charge if
   a) it was hungry
   b) someone went too close to him
   c) it saw another elephant
   d) it was attacked with a weapon

Answer Key:

1. d) calm, dignified, and affectionate disposition

2. b) kind and considerate

3. c) did not wish to kill an animal which was not doing anybody any harm

4. b) he needed to know how the elephant had been behaving

5. b) someone went too close to him

1. A person who aspires to lead could learn from the history of battles
   a) what led the previous leaders to win a battle
   b) what made them lose a battle
   c) the qualities and deficiencies of commanders of these battles
   d) the strategies that they have evolved in course of these battles

2. In this context, "intelligent interpretation of current events" means
   a) rational explanation of events
   b) appropriate understanding of events
   c) intellectual outlook on events
   d) skilful interpretation of events

3. The expression "more than a modicum of truth" means
   a) some truth
   b) much truth
   c) more than a small amount of truth
   d) nothing but truth

4. According to the writer, a study of famous battles of history would
   a) be beneficial to wise men
   b) provide food to modern leaders for reflection
   c) be more useful than a general knowledge of ancient history

d) help us understand the art of modern warfare

5. A knowledge of history is necessary to interpret current problems because
   a) they have roots in the past
   b) they can be contrasted with the past events
   c) they may be repetitions of past events
   d) only then they can be put in a proper context

Answer Key:

1. c) the qualities and deficiencies of commanders of these battles

2. b) appropriate understanding of events

3. c) more than a small amount of truth

4. b) provide food to modern leaders for reflection

5. a) they have roots in the past

Passage 11

The Amazon rainforest is the largest tropical rainforest in the world, spanning across nine countries in South America. It is home to an incredible diversity of plant and animal species, many of which cannot be found anywhere else on Earth. The rainforest plays a vital role in regulating the global climate by absorbing carbon dioxide and producing oxygen. However, deforestation due to logging, agriculture, and mining threatens its existence and the overall health of the planet.

MCQs:

1. Which continent is the Amazon rainforest located on?
   a) Africa
   b) Asia
   c) South America
   d) Australia

2. What role does the Amazon rainforest play in the global climate?
   a) It produces carbon dioxide
   b) It absorbs oxygen

c) It absorbs carbon dioxide and produces oxygen
d) It has no effect on climate

3. What is threatening the Amazon rainforest?
   a) Urbanization only
   b) Deforestation due to logging, agriculture, and mining
   c) Natural disasters
   d) Animal migration

4. How many countries does the Amazon rainforest span across?
   a) 5
   b) 7
   c) 9
   d) 12

5. Which of the following is NOT true about the Amazon rainforest?
   a) It is the largest tropical rainforest
   b) It contains many unique species
   c) It is located in Africa
   d) It helps regulate global climate

Answer Key

1. C) South America
2. c) It absorbs carbon dioxide and produces oxygen
3. b) Deforestation due to logging, agriculture, and mining
4. c) 9
5. c) It is located in Africa

Passage 12

Water is essential for all forms of life on Earth. It covers about 71% of the Earth's surface, primarily in oceans, rivers, lakes, and glaciers. Freshwater, which is necessary for drinking and agriculture, makes up only about 2.5% of all water on Earth, and much of it is trapped in glaciers and ice caps. Conservation of freshwater resources is crucial as demand grows with increasing population and industrialization.

MCQs:

1. What percentage of the Earth's surface is covered by water?
   a) 50%
   b) 71%

c) 80%
d) 90%

2. What portion of Earth's water is freshwater?
   a) 2.5%
   b) 10%
   c) 25%
   d) 50%

3. Why is freshwater important?
   a) It covers most of Earth's surface
   b) It is necessary for drinking and agriculture
   c) It is found mainly in oceans
   d) It is less important than saltwater

4. Where is much of Earth's freshwater trapped?
   a) Oceans
   b) Rivers
   c) Glaciers and ice caps
   d) Underground only

5. Why is conserving freshwater important?
   a) Because it is unlimited
   b) Because population and industrial demand are increasing
   c) Because saltwater is more useful
   d) Because it evaporates quickly

Answer Key

1. b) 71%
2. a) 2.5%
3. b) It is necessary for drinking and agriculture
4. c) Glaciers and ice caps
5. b) Because population and industrial demand are increasing

Passage 13

The invention of the printing press by Johannes Gutenberg in the 15th century revolutionized the spread of information. Before this invention, books were copied by hand, a slow and expensive process that limited access to knowledge. The printing press allowed mass production of books, making literature, scientific discoveries, and ideas more accessible to a

wider audience. This innovation played a key role in the Renaissance, Reformation, and the Scientific Revolution.

MCQs:

1. Who invented the printing press?
   a) Isaac Newton
   b) Johannes Gutenberg
   c) Galileo Galilei
   d) Leonardo da Vinci

2. What was the main limitation of books before the printing press?
   a) They were too cheap
   b) They were copied by hand, which was slow and expensive
   c) They were all written in Latin
   d) They were only available in libraries

3. What did the printing press enable?
   a) Slower book production
   b) Mass production of books
   c) More expensive books
   d) Books only for the wealthy

4. Which historical periods did the printing press influence?
   a) Renaissance, Reformation, and Scientific Revolution
   b) Middle Ages only
   c) Industrial Revolution only
   d) Modern era only

5. Why was the printing press significant?
   a) It limited knowledge dissemination
   b) It made ideas more accessible to many people
   c) It replaced hand-written letters
   d) It was used only for newspapers

Answer

1. b) Johannes Gutenberg
2. b) They were copied by hand, which was slow and expensive
3. b) Mass production of books
4. a) Renaissance, Reformation, and Scientific Revolution
5. b) It made ideas more accessible to many people

Passage 14

Solar energy is a renewable resource that comes from the sun. It can be captured using solar panels, which convert sunlight into electricity. Many countries are investing in solar power because it is clean and helps reduce pollution. Unlike fossil fuels, solar energy does not release harmful gases that contribute to climate change. However, solar panels require sunlight to work, so energy storage systems are needed for cloudy days or nighttime.

MCQs:

1. What is solar energy?
   a) Energy from wind
   b) Energy from water
   c) Energy from the sun
   d) Energy from fossil fuels

2. How do solar panels work?
   a) They burn sunlight
   b) They convert sunlight into electricity
   c) They store sunlight
   d) They block sunlight

3. Why is solar energy considered clean?
   a) It produces harmful gases
   b) It does not produce harmful gases
   c) It uses fossil fuels
   d) It creates pollution

4. What is a limitation of solar panels?
   a) They work all the time
   b) They require sunlight to work
   c) They are very noisy
   d) They release harmful gases

5. Why are energy storage systems important for solar power?
   a) To increase sunlight
   b) To store energy for when sunlight is not available
   c) To reduce pollution
   d) To generate more sunlight

Answers

1. c) Energy from the sun
2. b) They convert sunlight into electricity

3. b) It does not produce harmful gases
4. b) They require sunlight to work
5. b) To store energy for when sunlight is not available

Passage 15

The Great Wall of China is one of the world's most famous landmarks. It was built over several centuries to protect Chinese states from invasions. The wall stretches thousands of miles across northern China and was constructed using bricks, stones, and other materials. Today, the Great Wall is a popular tourist attraction and a symbol of China's historical strength and unity.

MCQs:

1. Why was the Great Wall of China built?
   a) To serve as a trade route
   b) To protect Chinese states from invasions
   c) To connect cities
   d) To show wealth

2. How long is the Great Wall of China?

2. c) Thousands of miles
3. b) Bricks, stones, and other materials
4. b) A popular tourist attraction
5. b) China's historical strength and unity

Passage 16

Photosynthesis is the process by which green plants make their food using sunlight, carbon dioxide, and water. During photosynthesis, plants take in carbon dioxide from the air and water from the soil. They use sunlight as energy to convert these into glucose and oxygen. The glucose provides energy for the plant, while oxygen is released into the atmosphere. Photosynthesis is essential for life on Earth because it produces oxygen and food for many organisms.

MCQs:

1. What is photosynthesis?
   a) The process of plants making food
   b) The process of animals eating plants
   c) The process of plants absorbing water only
   d) The process of plants growing roots

2. What do plants need for photosynthesis?
   a) Carbon dioxide, water, and sunlight
   b) Oxygen and water
   c) Sunlight and oxygen
   d) Soil and wind

3. What is produced during photosynthesis?
   a) Carbon dioxide and water
   b) Glucose and oxygen
   c) Only oxygen
   d) Only glucose

4. Why is photosynthesis important?
   a) It produces oxygen and food for many organisms
   b) It uses up oxygen
   c) It happens only at night
   d) It is a harmful process

5. Where do plants get carbon dioxide from?
   a) Soil
   b) Air
   c) Water
   d) Roots

Answers

1. a) The process of plants making food
2. a) Carbon dioxide, water, and sunlight
3. b) Glucose and oxygen
4. a) It produces oxygen and food for many organisms
5. b) Air

Passage 17

Electric cars use batteries to store energy instead of gasoline. They are powered by electricity and produce no exhaust emissions, making them better for the environment. Electric vehicles (EVs) can be charged at home or at public charging stations. However, the range of electric cars—how far they can travel on one charge—can be limited compared to traditional cars, and charging takes more time than filling a gas tank.

MCQs:

1. What powers electric cars?
   a) Gasoline
   b) Batteries
   c) Diesel
   d) Solar energy

2. Why are electric cars better for the environment?
   a) They produce no exhaust emissions
   b) They use gasoline efficiently
   c) They run faster
   d) They are cheaper

3. Where can electric cars be charged?
   a) Only at gas stations
   b) At home and public charging stations
   c) Only in special factories
   d) Anywhere without electricity

4. What is the disadvantage of electric cars?
   a) They have unlimited range

b) They take longer to charge than filling a gas tank
c) They produce more pollution
d) They cannot be charged at home

5. What does "range" mean for electric cars?
   a) The speed of the car
   b) The distance it can travel on one charge
   c) The time it takes to charge
   d) The size of the battery

Answers

1. b) Batteries
2. a) They produce no exhaust emissions
3. b) At home and public charging stations
4. b) They take longer to charge than filling a gas tank
5. b) The distance it can travel on one charge

Passage 18

The human brain is one of the most complex organs in the body. It controls thoughts, memory, emotions, and movement. The brain is made up of billions of neurons that communicate through electrical and chemical signals. Scientists continue to study the brain to understand how it works and how to treat brain diseases like Alzheimer's and Parkinson's.

MCQs:

1. What does the human brain control?
   a) Only movement
   b) Thoughts, memory, emotions, and movement
   c) Only emotions
   d) Only memory

2. What is the brain made of?
   a) Muscle cells
   b) Billions of neurons
   c) Bones
   d) Blood

3. How do neurons communicate?
   a) Through electrical and chemical signals
   b) By sound waves

c) Through blood flow
d) Using light

4. What are scientists trying to understand about the brain?
   a) Its color
   b) How it works and how to treat brain diseases
   c) How to make it bigger
   d) How to replace it with machines

5. Which diseases are mentioned as brain diseases?
a) Diabetes and cancer
b) Alzheimer's and Parkinson's
c) Asthma and bronchitis
d) Flu and cold

Answers

1. b) Thoughts, memory, emotions, and movement
2. b) Billions of neurons
3. a) Through electrical and chemical signals
4. b) How it works and how to treat brain diseases
5. b) Alzheimer's and Parkinson's

Passage 19

Mount Everest is the tallest mountain in the world, located in the Himalayas on the border between Nepal and China. It reaches a height of 8,848 meters (29,029 feet). Climbing Everest is very dangerous due to extreme cold, high altitude, and difficult weather conditions. Despite the risks, many climbers attempt to reach its summit each year.

MCQs:

1. Where is Mount Everest located?
   a) Africa
   b) South America
   c) Himalayas on the Nepal-China border
   d) Europe

2. How tall is Mount Everest?
   a) 5,000 meters
   b) 8,848 meters
   c) 10,000 meters

d) 7,000 meters

3. Why is climbing Everest dangerous?
   a) Because of extreme cold, high altitude, and bad weather
   b) Because it is very easy
   c) Because there are many animals
   d) Because it is very short

4. Do many climbers attempt to climb Mount Everest each year?
   a) Yes
   b) No
   c) Only once every 10 years
   d) Only scientists climb it

What is the height of Mount Everest in feet?
a) 20,000 feet
b) 29,029 feet
c) 30,000 feet
d) 25,000 feet

Answers

1. c) Himalayas on the Nepal-China border
2. b) 8,848 meters
3. a) Because of extreme cold, high altitude, and bad weather
4. a) Yes
5. b) 29,029 feet

Passage 20

The Internet is a global network that connects millions of computers and devices worldwide. It allows people to communicate, share information, and access services like shopping and entertainment. The World Wide Web (WWW) is one of the most popular uses of the Internet, providing websites and online resources. However, the Internet also poses challenges such as privacy concerns and misinformation.

MCQs:
